

aldahra 

Our vision is to be a leader in innovative food solutions across the globe, partnering with stakeholders for sustainable agriculture and optimized supply chains.

GROUP PROFILE

GROUP PROFILE

📍 Braila Island - Romania

aldahra

A DIVERSIFIED BUSINESS PORTFOLIO

Al Dahra is a prominent multinational leader in agribusiness, specializing in the cultivation, production and trading of animal feed, essential food commodities and end-to-end supply chain management.

Animal Feed

- 40+ forage varieties
- Roughage and grasses
- Feed commodities
- Supplements and additives

Food

- Essential crops and grains (rice, flour, wheat, barley, corn and others)
- Fresh produce (citrus, dates, grapes, apples, olives, potatoes and others)
- Dairy (fresh milk and dairy products)

Farming

- 400K acres land bank
- More than 60 farms across 5 continents

Forage & Feed

- 3M MT Forage
- 17 forage processing lines
- Infrastructure spread across the globe for sourcing forage from long-term partners

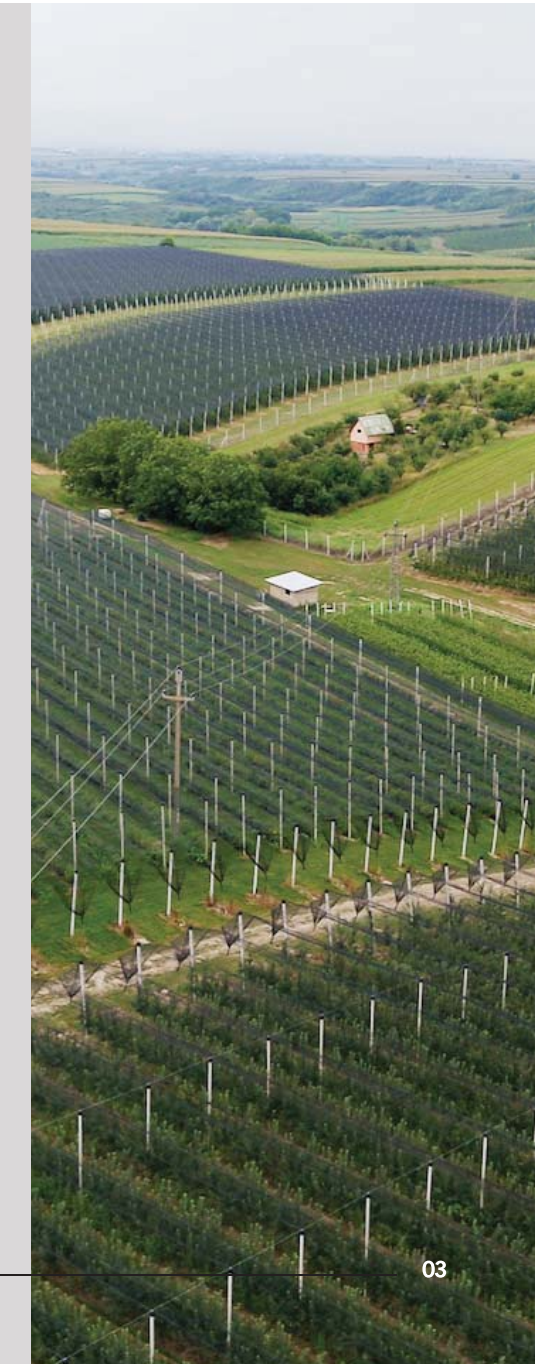

Grains & Specialty crops

- 3M MT of grains and fertilizers
- 300K MT storage facility in Fujairah

Food & Rice

- 2 Rice Mills
- 2 Flour Mills
- 2 Fruit Packhouses
- 2 Dairy Farms
- 1 Olive Oil Processing Plant
- 500K MT of Rice
- 500K MT of Flour
- 150K MT of Fruits and Vegetables

AN INTEGRATED AND UNIQUE BUSINESS MODEL

WIDESPREAD GLOBAL INVESTMENTS AND GEOGRAPHIC FOOTPRINT

Undisrupted supply all year-round and across all seasons
Widely Spread supply sources leading to stable supply
Mitigation against climate change risks
Mitigation against economic and trade risks
Strong position to face commodity price volatility

INTEGRATED INVESTMENT APPROACH AND BUSINESS MODEL

End to end control over the supply process
Full integration of supply, demand and logistics
In-house farming and long-term supply contracts
Improved control over quality of products
Reduced cost and increased competitiveness

GLOBAL LOGISTICS CAPABILITIES AND STRONG RELATIONS WITH PORTS AND SHIPPING LINES

In-house logistics arm to manage local logistics
Competitive shipping rates leveraging group volumes
One-stop solution for inland transport and storage
Continuous delivery service on key trade lanes
Access to world-class logistics infrastructure

COMMITMENT TO ENSURE LONG-TERM FOOD SECURITY ADDRESSING TRADE CHALLENGES

Long-term Government contracts and volumes
Emergency stock reserves rotated at all times
Agility of supply in times of global shortages
Guaranteed product availability for rushed orders
Ability to maneuver sourcing from various origins

INVESTMENTS IN THE AGRIBUSINESS VALUE CHAIN

📷 Farming Operations - Serbia

aldahra

A GLOBAL FOOTPRINT AND UNIQUE POSITION

Al Dahra has a widespread geographic footprint, with a workforce of 5,000 employees, operating in over 20 countries and catering to more than 45 markets, with a leading position in Asia and the Middle East.

Europe	Africa	Australia	Asia	GCC	America
1. Greece	7. Egypt	11. Australia	12. India	15. KSA	17. USA
2. Italy	8. Morocco		13. Pakistan	16. UAE	
3. Serbia	9. Namibia		14. China		
4. Spain	10. South Africa				
5. Romania					
6. Estonia					

| SUPPLY CHAIN

AL DAHRA / SUPPLY CHAIN

Logistics Services

- Temperature-controlled warehousing and storage facilities
- Storage silos for raw and finished goods with continuous stock rotation
- Customs clearance coupled with loading and offloading services
- Inland transportation for container and bulk (trucking, railing)
- Air freight services
- Sea freight services including river barging
- Logistics operations management and door-to-door deliveries

Capabilities

Established agreements with international shipping lines

- Shipping space availability guarantee
- Negotiating power and volumes' leverage

Established relations and track record with key outbound ports

- Ad-hoc solutions at port of loading and destination

Number one importer into the UAE

- Above 100K TEUS per annum (dry and reefer containers)
- Largest import container customer at Khalifa Port
- Amongst the top 5 importers of Jebel Ali Port.

largest forage exporter out of the United States and winner of the US President Commerce E-Award

largest forage customer of the Port of Barcelona for many consecutive years

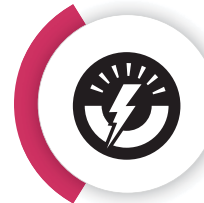

FOOD SECURITY

AL DAHRA / FOOD SECURITY

ENVIRONMENTAL AND SOCIAL SUSTAINABILITY

Recognizing the challenges posed by climate change and global warming and the continuing decrease in cultivable land and diminishing water resources available for farming, Al Dahra emphasizes on keeping Water and Food Security at the core of its strategy.

Al Dahra believes that it has a responsibility towards end-consumers to enhance availability, accessibility and affordability of essential food commodities and crops.

Energy Consumption Optimization

- First zero carbon emission farming project in the region in collaboration with Masdar
- 32 Acres Area
- 20 Mega Watt solar plant
- Significant energy and carbon emission reduction
- 112 lines of solar sheets
- PV Module 66K

Water Consumption Optimization

- Land reclamation and irrigation development
- Drip irrigation systems for water usage optimization
- Farming satellite control
- Precision farming application

Fertilizers Consumption Optimization

- Fertilizers and pesticides reduction programs
- Ground water preservation

| FARMING

FARMING

📷 Farming Pivots - Toshka, Egypt

aldahra

United States

California and Arizona

- Strategically located in forage growing areas
- 6 farms spread across Southern California and Arizona
- 30,000 acres of land
- 84K MT of alfalfa and other grass produced annually
- Onion and garlic farming
- 700K MT exported

Romania and Spain

Braila Island, Romania

- Largest consolidated farm in Europe, 160 Km away from Bucharest
- 29 adjacent farms spread over 135,000 acres
- Full access to the Danube
- Close Proximity to Constanta port
- 40K MT grain silos
- 5 loading/offloading points across the island
- 7,000 vessels loading capacity
- 1,000 agricultural fleet size
- 300K MT annual output of Winter and Summer crops

Spain

- 26,000 acres of land
- 285K MT annual forage production
- 600K MT exporting

Serbia, Belgrade

PKB Korporacija

- Acquisition of PKB Korporacija through a privatization tender
- 45,000 acres of farmland next to Belgrade, spread across 8 farms
- 55K MT grain silos
- Dairy farm comprising of 16,000 cows across 7 dairy sites
- 58 million liters of fresh milk annual production

Rudnap

- 310 acres apple orchard
- 500,000 apple trees
- 10K MT annually
- 5 different apple varieties
- Cold storage facilities

Key Animal Feed Crops Farmed

Harvesting Operations - Romania

Key Produce Farmed

AL DAHRA / FARMING

Egypt

Three key farming projects:

East Owainat

- 15,000 acres cultivated
- 17,500 MT yearly production of Wheat
- 27,500MT yearly production of Potato
- 35,000MT yearly production of Alfalfa
- 3K MT yearly production of Onion

Salheya

- 3,000 acres cultivated
- More than 500 K Citrus Trees
- 25K MT per season
- 100 acres pomegranate

Toshka

- 37,400 acres cultivated (Phase I) and 70,000 acres to be cultivated (Phase II)
- 68K MT alfalfa yearly production
- More than 28,900MT Wheat yearly production
- Potato, Barley, Date Palm, Mango trees, Citrus trees, Grapes Trees.

First zero carbon emission farming project in the region in collaboration with Masdar

- 32 Acres Area
- 20 Mega Watt solar plant
- Significant energy and carbon emission reduction
- 112 lines of solar sheets
- PV Module 66K

Morocco and Namibia

- 420 ha of Olives planted Area
- Olives varieties (Arbosana/Arbequina/Koroniki/Menara/Haouziya)
- 24 MT annual productions of Olives
- Apples 475 acres producing around 8K MT

Namibia

- 200 acres of land
- 22,800 palm trees
- Different date varieties
- 35,000 grape trees
- Production of various table grape varieties

Al Ain (UAE)

Organic Vegetables

- 300 greenhouses and nethouses
- Organic vegetables production
- 3 MT production daily
- 4,000 date palm trees

Dairy Farm

- 2,000 cows of which 1,600 are milking
- 45,000 liters of fresh milk daily
- Organic dairy factory

Organic Poultry

- 20,000 Kg fresh organic chicken monthly

| FORAGE & FEED

FORAGE & FEED

SUPERIOR RICE MILLING INFRASTRUCTURE

RICE

- Finest varieties of Basmati and non-Basmati rice
- Annual processing capacity of 260K MT
- Annual trading capacity of 500K MT
- The plant has a processing capacity of white rice at 20 tons per hour with production Capacity of 120K MT per year
- 40 rice storage silos, each with a 750 MT capacity, with controlled temperatures (between 16 to 18 degrees)
- Finished goods warehouse has with of 4,500 MT storage capacity (in 40kg bags) with temperature control
- High speed fully automated bulk bagging, taping, strapping and consumer packaging with capacity of 20 tons per hour
- Strategically located factories in India, Pakistan and UAE

The biggest Rice Factory in the MENA region

Largest Fully Automated Plant in a Single Hub in India

Largest Fully Automated Rice Mill in Pakistan

Our Retail Brand: Al Hosn

Kizad Rice Mill - Abu Dhabi, UAE

SUPERIOR FLOUR MILLING INFRASTRUCTURE

FLOUR

- Al Dahra's stake in Loulis Mills, Greece-based leading flour miller
- 500K MT flour annual production capacity
- 80K MT total grains storage capacity
- 120 different flour products + 800 different baking ingredients products
- 25% share of the Greek market; leader in the Balkan area
- 3 privately owned distribution centers in Greece
- High-tech in-house laboratories
- In-house experimental and pilot bakeries

Genera Toshevo

Bulgaria Mill Flour mill located in the heart of Bulgaria's Dobrich wheat growing region

- Processing capacity 130 tons/day
- 10,000 tons wheat silo
- State of the art flour mixing system
- Modern Quality Control Lab

Keratsini Piraeus Port

strategic location in the largest port in Greece with private dock

- Dock capacity: 150 MT per hour
- Grinding capacity: 300 MT per day
- Grain silos capacity: 20K MT
- Flour silos capacity: 5K MT
- Research and development

Sourpi Magnesia Port

private port with loading and offloading services

- 7 production lines with grinding capacity of 1K MT per day
- Grain silos capacity: 55K MT
- Flour silos capacity: 5K MT
- Bagged products warehouse
- Modern organic mill and pellet press

Our Retail Brand: Loulis

Flour Milling - Loulis, Greece

SUPERIOR DAIRY PRODUCTION INFRASTRUCTURE

Fresh Milk

- 19,000 milking cows across the UAE and Serbia
- 50,000 liters of fresh milk daily

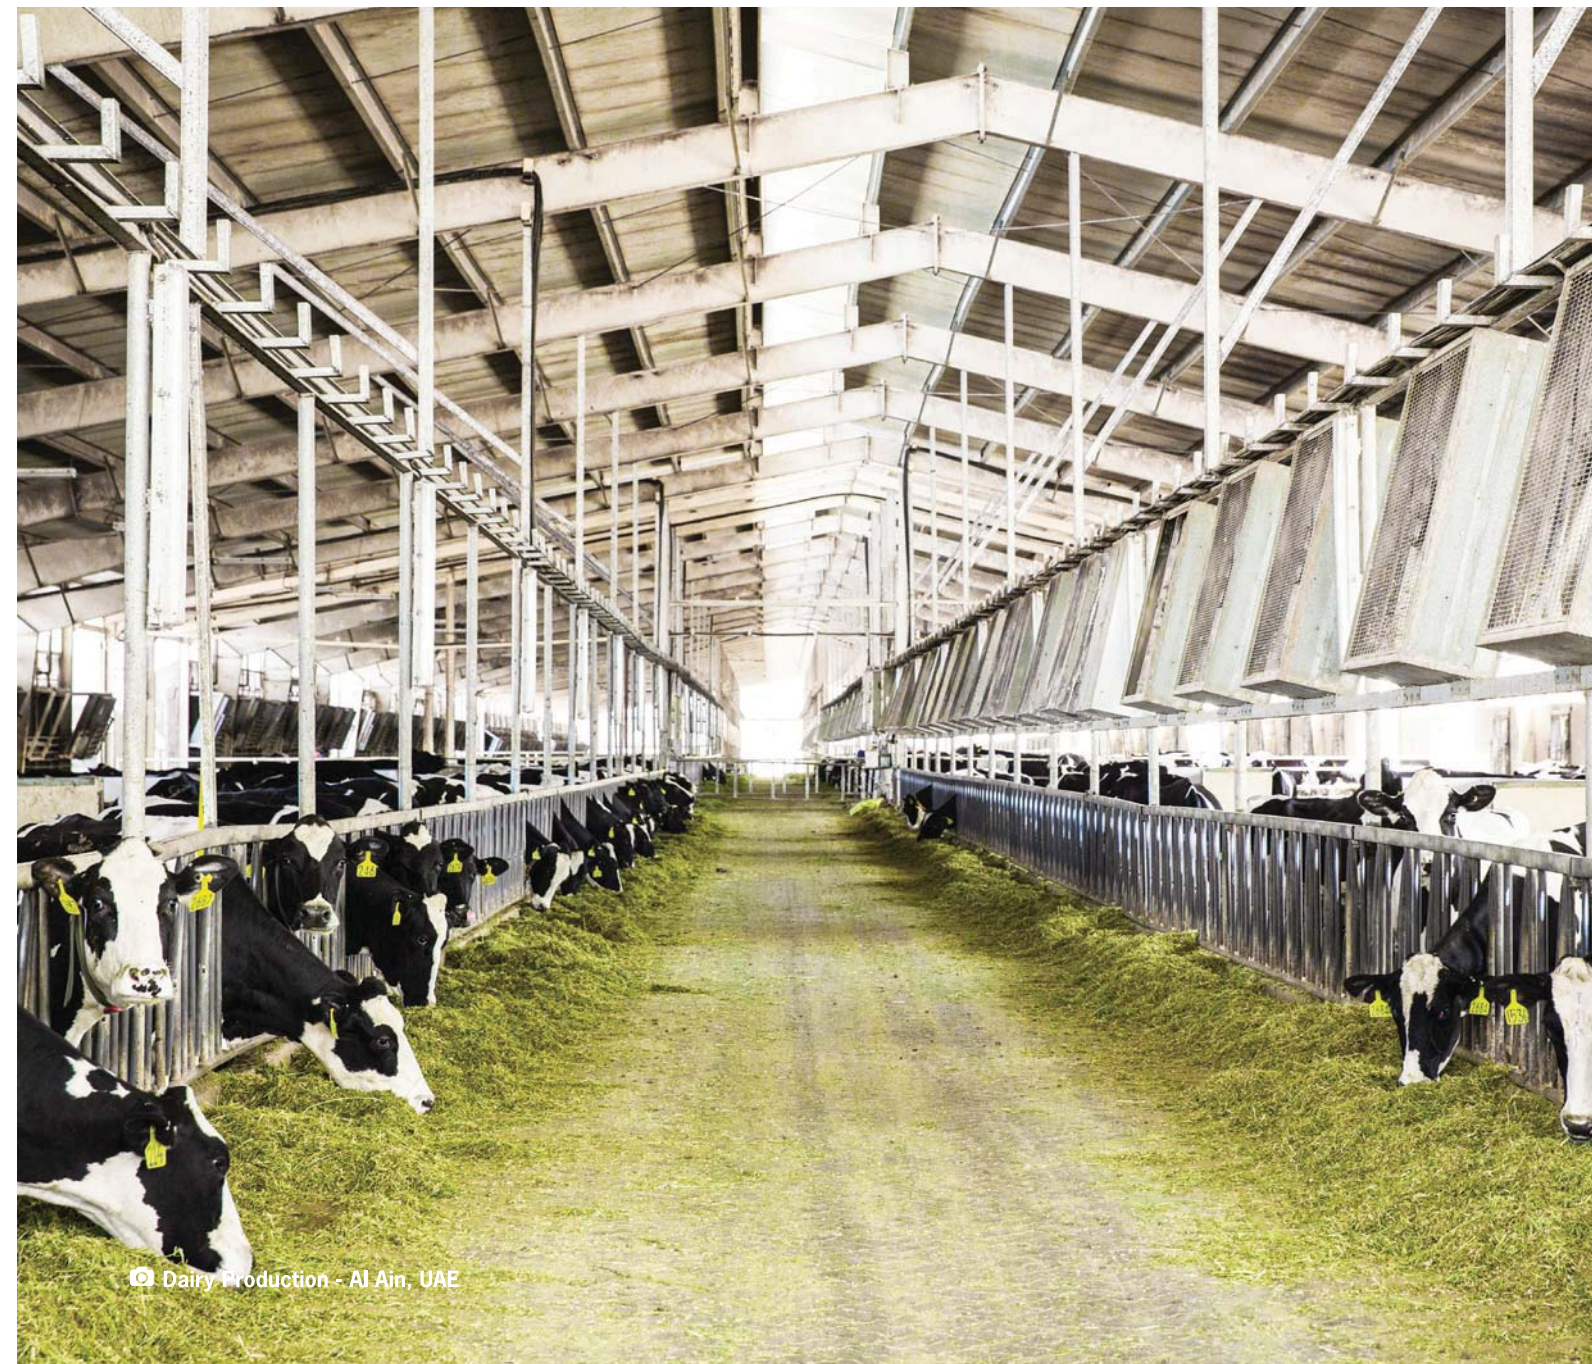

Cheese Production

- Cheese production facilities in UAE
- 50 MT of cheese produced annually
- 13 types of cheeses: Halloumi, Bulgari, Nabulsi, Shilal, Akawi, Shanklish, Kashkaval, Majdouli, Baladi and others

Organic Production

- 20 organic milking cows in UAE
- 250 liters of organic milk daily
- 60 MT of organic cheese produced yearly

📷 Dairy Production - Al Ain, UAE

150K MT OF FRESH PRODUCE ANNUALLY FARMED, SOURCED AND SUPPLIED

Citrus

- Citrus cultivation and supply in Egypt
- Wide citrus varieties: oranges, mandarin, grapefruit and lemon
- Automated state-of-the-art citrus packhouse and storage facility
- MAR Roda - GLobalScan VI - 8 lanes packing capacity of 350 MT daily
- Cooling and main fridge holding facilities up to 1,000 Pallets

Apples

- 310 acres apple orchard in Serbia
- 500,000 apple trees / 10K MT annual production
- 5 apple varieties: Gala, Golden Delicious, Granny Smith, Red Delicious and Fuji
- Automated state-of-the-art citrus packhouse and storage facility
- MAR Roda - GLobalScan 7 - 4 lanes packing capacity of 100 MT daily
- Cold storage facilities up to 8K MT
